UNION STRENGTH

We will rebuild our union's industrial muscle. We haven't taken stop work action in over eight years – that's why the employer, and the government, don't take us seriously.

REAL INTEGRITY

We will publish the Union's finances so all members can see where the money goes. Any payment to an Elected Official will be ratified by a general meeting. We guarantee that your officials will not misuse union funds.

RANK & FILE DEMOCRACY

Over the last eight years, union meetings have rarely occurred, and when they do the results aren't published in full. We will move to full e-voting and the capacity to virtually participate in general meetings, to ensure members control our Union.
